Reset (pause or turn off) audio alarms

Touch ⚠️ .

Adjust alarm limits

Touch ___ or ___ in the alarming parameter to display alarm controls. Adjust a limit or turn off.

Start/Stop blood pressure

Start automatic intervals

1. Properly size the blood pressure cuff and position it around the patient's bare upper arm.

2. On the Home tab, touch ___ .

3. Select **Automatic**.

4. Use the numeric keypad to enter the length of time between NIBP measurements.

5. Touch **Start intervals**.

Enter manual parameters

1. From the Home tab, touch anywhere within the Manual parameters frame. The Manual tab appears.

2. Touch the up/down arrow keys or the keypad to manually adjust height, weight, pain level, temperature, respiration rate, or other parameters.
3. Touch **OK** to confirm settings and return to the Home tab.

    Note   Entries will not be saved unless you touch **OK**.

Set modifiers

1. Touch the **Patients** tab.
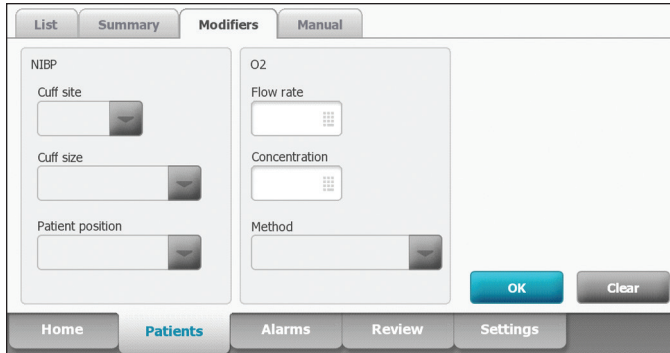

2. Touch the **Modifiers** tab.
3. Adjust the settings as required.
4. Touch **OK** to accept or **Clear** to delete all entries.

    Note   Entries will not be saved unless you touch **OK**.

Save patient data

After taking patient measurements, touch **Save**.
A message will appear indicating a successful or failed save.

Manage patient records

Patient records can be sent to the network, printed, or deleted.

1. Touch the **Review** tab.
